

# ELIXA<sup>®</sup> Easy

## ELIXA Easy

Elix technology

It is an automatic wrapping machine, the littlest among the Elix series, conceived as the ideal choice for small sales points and for delicatessen departments.

It uses the stretch technology to wrap mainly in tray with food film, and it can be personalized according to different customer needs.

## Main features and strength points

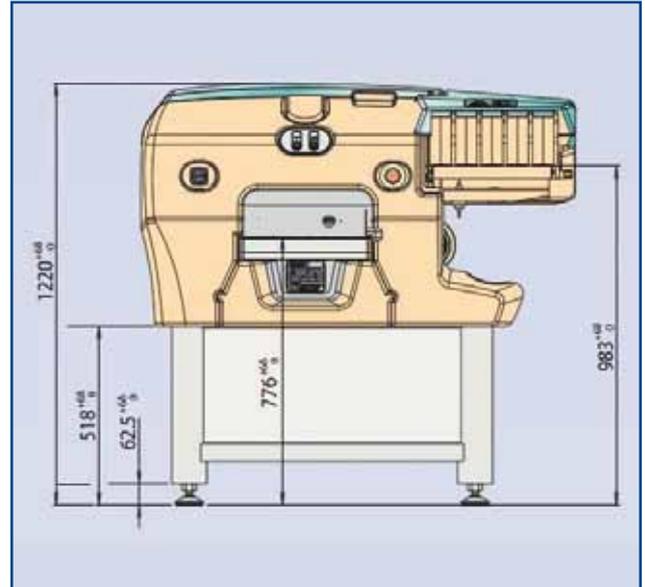

> Small footprint.	> Trays sizes automatic reading.
> Ergonomic aspect and friendly use.	> Single film reel used for any workable tray sizes.
> Frontal film reel ejection, which enables to install the machine even in restricted working places.	> Minimum film consumption.
> Flexibility in wrapping times.	> Possibility to use the most popular pricing-weighting devices, even combined with dedicated optional parts.

## Technical specifications

Speed	Up to 14 packs/minute
Stretch film	Single film reel: 280 mm
Tray sizes (LxWxH)	Min 120x100x10 mm Max 350x230x130 mm (*)
